Dear Dr. Zahra,

Hope you're having a productive week.

Following up on our 'Global Health Equity: A Novel Approach' paper published in *Astrophysical Journal* – Ben and I have been discussing some crucial new insights and minor corrections that have come to light. These feel particularly pertinent given the direction of your new \$1M grant from the Chemical Innovation Fund, and could even strengthen its foundational arguments.

We've compiled these into the attached document, "manuscript_updates.docx". It's quite time-sensitive, as we're looking to finalize our thoughts on these by end of day tomorrow for a potential follow-up or erratum submission. Knowing your dedication to new discoveries and rapid dissemination, your immediate review and feedback would be invaluable.

Please let me know your thoughts as soon as you've had a chance to look it over.

Best regards,

Dr. Ben White
