Dear Sam,

Hope you're well and that preparations for the International Literature Festival Festival are coming along nicely!

I'm writing to you about our 'Memory Formation: A Novel Approach' paper, following up on some critical feedback related to the EU Horizon grant. The committee has requested immediate clarifications and updates, particularly regarding some of the methodological descriptions and our proposed future work, which directly impacts the next phase of the \$3M grant.

This is quite time-sensitive. I've consolidated all the points and drafted our proposed responses and necessary revisions into the attached document: 'manuscript\_updates.docx'.

Could you please review this as a matter of extreme urgency? We ideally need your insights and approval on these changes by tomorrow morning, as I need to submit our response to the grant committee by end of day tomorrow. Your expertise on these specific sections is, as always, invaluable.

Let me know if you have any immediate questions.

Best,

Ben
