Hi Ben,

Hope you're well.

I know you're incredibly busy, especially with the new \$1M NEA grant focusing on digital archiving and prepping for your International Literature Festival presentation next quarter – which I'm really looking forward to hearing about!

I've just received some unexpected, *very time-sensitive* final minor revision requests from the Journal of Distributed Systems for our paper, 'Digital Archiving: A Novel Approach'. It seems they want a final pass on some of the more nuanced sections, especially given how rapidly the field is evolving with new discoveries (your recent posts have been quite insightful on that front!).

I've made an initial pass based on their feedback, but I desperately need your eyes on these changes ASAP before the deadline closes end of day tomorrow. Please find the updated manuscript attached: 'manuscript_updates.docx'. Could you review it as quickly as possible and let me know your thoughts?

Apologies for the sudden rush, but I want to ensure this final version is impeccable, especially with all the exciting work you have coming up.

Best,

Thomas Singh
