Hi Maria,

Hope you're having a productive week.

I'm writing with an urgent request regarding our "Urban Informatics: A Novel Approach" paper. We just received some unexpected, last-minute feedback from the Journal of Educational Technology that requires immediate attention before final publication.

I've already incorporated the changes, particularly in the sections related to the novel applications of urban informatics, knowing how vital your recent \$5M grant from the Chemical Innovation Fund is to this area. Given your deep expertise and your upcoming presentation at Biomedical Engineering Insights, your final review of these specific revisions is absolutely critical.

Please find the updated manuscript attached as "manuscript_updates.docx". Could you possibly review it within the next few hours and send back any comments? We need to submit the final version *today* to meet their accelerated deadline.

Thanks so much for your quick turnaround on this.

Best,

Richard White
