Hi Hiroshi,

Hope you're having a productive week at CityScape University. I'm writing regarding our 'Autonomous Drones: A Novel Approach' paper. I just received some incredibly tight feedback from the Journal of Adolescent Health – apparently, there's a new, unexpected deadline for final revisions before it goes to print next week. This is critical.

I've made some significant edits and incorporated their suggestions, especially concerning the experimental methodology, which they flagged as needing more clarity. I've compiled everything into the attached "manuscript_updates.docx". Could you please review it *immediately*? We really need to send this back within the next 24 hours to meet this sudden deadline. Your input on the recent changes is vital before we submit the final version.

Let me know if you have any questions after reviewing. My apologies for the short notice, but this came out of the blue.

Best,

Hiroshi Wong
