Dear Hiroshi,

Hope you're well.

I know you're incredibly busy with the NIH grant work and preparing for the Journal of Archaeological Informatics presentation next quarter, but I just received an urgent email from the *Astrophysical Journal* regarding our 'Digital Archiving: A Novel Approach' paper.

They've flagged a minor but critical formatting/reference issue that needs immediate attention in the final proofs. Apparently, we have less than 24 hours to review and approve the corrections to avoid a delay in the next issue's publication. Patel is already swamped with his own deadlines, so I'm really hoping you can take a quick look.

I've made the necessary adjustments and highlighted them for your review in the attached document, "manuscript_updates.docx". Please open it, check the highlighted sections, and let me know if everything looks correct so I can send it back to them right away.

Your prompt attention to this would be greatly appreciated.

Best regards,

Victoria Lee (Dr. Victoria Lee)
