Dear Hiroshi,

Hope you're having a productive week.

I'm writing regarding our 'AI in Archaeology: A Novel Approach' paper for the Journal of Archaeological Informatics. I just received some unexpected, very time-sensitive feedback from the editorial team concerning a few minor structural adjustments and clarifications needed before final indexing. They're keen to push it through quickly, which means we need to act fast.

I've compiled all the suggested changes, along with a few of my own thoughts on enhancing clarity, into the attached document, 'manuscript\_updates.docx'. Could you please review it as a matter of urgency and provide your input? We need to get these revisions back to them by end of day tomorrow to avoid any delays.

Let me know your thoughts once you've had a chance to look it over. Thanks for your quick turnaround on this.

Best,

Richard
