Hi Emily,

Hope you're well.

I know you're incredibly busy with the new \$4M NIH grant work and prepping for the Robotics World Expo, but I just received some **very** time-sensitive feedback on our 'Public Health Policy: A Novel Approach' paper from the Journal of Marine Ecosystems. It seems they've found a few critical areas that need immediate attention before the final publication deadline for the upcoming issue.

I've incorporated their comments and made the necessary adjustments in the attached document: "manuscript_updates.docx". Could you please review it ASAP, ideally within the next 24 hours? We absolutely need your approval on these changes to ensure we don't miss this window. Missing the deadline could push publication back significantly, which would be a shame after all our hard work.

Let me know if you have any questions after reviewing.

Best,

Isabella
