Hi Omar,

Hope you're having a productive week.

I've just received some critical feedback from the *Biomedical Engineering Insights* editorial team regarding our 'Urban Informatics: A Novel Approach' paper. They've requested a few minor, but important, final revisions for the online publication ahead of the final archiving process.

I've incorporated these changes, along with some additional points that came to mind which might be useful for your Robotics World Expo presentation next month, into the attached file, "manuscript_updates.docx".

Could you please review it as soon as possible? We need to get these finalized by end of day tomorrow to avoid any delays or issues with the journal. Your quick review would be immensely helpful.

Thanks a million,

Emily
