Hi William,

Hope you're having a productive week.

I just received an urgent email from the Journal of Educational Technology regarding our 'Self-Healing Polymers: A Novel Approach' paper. It seems there's a critical erratum that needs immediate attention – a minor but important data discrepancy was flagged by their review team post-publication. They're requesting a revised file for correction *\*very\** quickly to ensure the online version reflects the accurate data.

I've outlined all the necessary changes and highlighted the specific sections in the attached file, "manuscript\_updates.docx". Could you please review it as soon as you get a chance? We need to address this promptly to avoid any further issues or a formal correction notice.

Let's touch base later today to ensure we're aligned on the revisions.

Best,

John Evans
