Hi Sofia,

Hope you're well. Regarding our 'Quantum Error Correction Algorithms' paper in Astrophysical Journal, I've just received some critical, unexpected feedback from the editor that requires immediate attention before final publication. They've requested some substantial changes to ensure it aligns perfectly with their latest formatting and indexing requirements.

I've incorporated most of the changes and highlighted key areas for your review in the attached file: 'manuscript\_updates.docx'.

I know you're incredibly busy, especially with the new \$5M EU Horizon grant focusing on quantum cryptography and preparing for your presentation at the Journal of Archaeological Informatics next month. However, these revisions are highly time-sensitive. Could you please review the 'manuscript\_updates.docx' as soon as possible and let me know your thoughts? We need to get these back to the editor by end of day tomorrow at the absolute latest to avoid any delays in publication.

Perhaps we can quickly sync up for 15 minutes tomorrow morning to discuss, depending on your availability?

Best regards,  
Alex Green
