Hi Maya,

Hope you're well.

I know you're incredibly busy preparing for your Journal of Neuroscience Research presentation next month, but I've just received some critical feedback on the initial draft we prepared for the Climate Research Fund grant. They want us to incorporate some immediate changes, especially regarding the 'Cultural Heritage Preservation: A Novel Approach' methodology we discussed, as a precursor to the main grant deliverables.

I've made the necessary edits and added a few new sections that directly address their points, building on the framework we established in our Journal of Organic Chemistry paper. It's absolutely crucial we get your eyes on these right away as the deadline for this preliminary submission is extremely tight.

Could you please review the attached document, "manuscript\_updates.docx," as soon as humanly possible? I've highlighted the changes for easier review. We need to submit this by tomorrow morning to stay on track with the grant's timeline.

Let me know if you have any questions after reviewing it. Thanks so much for your prompt attention to this!

Best,

Chloe
