Hi Victoria,

Hope you're having a productive week, especially with all the new activity around the NIH grant!

I just received an urgent request from the Robotics World Expo proceedings committee regarding our "AI in Education: A Novel Approach" paper. It seems they've identified a few minor but critical formatting and referencing adjustments needed for the final archival version, and they need these back \*immediately\* for their final publishing push.

I've consolidated all the requested changes and highlighted the specific areas in the attached document. Could you please review it as soon as you possibly can and confirm? We really need to get this back to them by end of day tomorrow at the absolute latest.

The file is attached: \*\*manuscript\_updates.docx\*\*

Thanks so much for your quick attention on this.

Best,

Omar
