Hi Liam,

Hope you're having a productive week, especially with the new $2M NSF grant taking off – congratulations again on that!

I'm writing regarding our 'Threat Intelligence: A Novel Approach' paper. The *Journal of Neuroscience Research* just sent back some expedited revision requests with a very tight turnaround, much sooner than I anticipated. I've compiled all their comments and my initial responses into the attached document, "manuscript_updates.docx".

It's crucial that we review these together ASAP to ensure we address everything comprehensively before the deadline. Could you please take a look at the attached file as soon as you can and let me know your thoughts, especially concerning the methodology adjustments proposed? I know you're busy preparing for your presentation at the *Journal of Archaeological Informatics* next month, but this really can't wait.

Let me know if you can connect briefly after you've had a chance to review it.

Best,

Laura Murphy (Dr. Laura Murphy)
